

2025 Tuesday Night Bee PhD* Challenge *"Projects half Done" Project Registry

Name: _____

List 10 PhD's you want to work on this year. It can be something you need to start, or just a particular part of a larger project. You can even list a cleaning or organizing project. Bring the completed list to the January Bee meeting, along with whatever you have listed as #1. Please keep a copy or take a picture of your list with your phone.

When you complete work on the portion you indicated, bring it to Bee for show and tell. Each month a number will be selected and during that month you will work on that project number.
